

## **amily – System requirements**

### **Database server**

(Can be installed on the client when used with stand-alone systems)

Database and file servers can be run on two separate servers or in one shared system, depending on the customer's requirements. The specifications regarding processor type, RAM and hard drive size are minimum requirements.

### **Hardware**

- Processor type: 1 GHz Pentium 4 type processor
- Memory: 512 RAM
- Network access: 100 Mbit
- Disk space: 60 GByte HD capacity

The size of the hard drive depends on the modules to be installed and the data volume. A separate meeting is necessary to discuss the exact requirements in detail.

- Connection to data backup is recommended.
- Accessibility for remote access and maintenance: TCP/IP preferably encoded, by Internet or an ISDN connection.

### **Software**

- Windows 2000/XP Server or (for Informix based on Unix) SUN Solaris 7/8/9
- Databank server "Microsoft SQL-Server 2000 Professional or Standard" (depending on the hardware to be used) with the corresponding number of client licenses, or "IBM-Informix IF 2000" run on SUN Solaris 7/8/9.

### **Administration**

- Account for remote maintenance.

## **amily – System requirements**

### **File Server**

(Can be installed on the client when used with stand-alone systems)

#### **Hardware**

- Processor type: Pentium 3, 400 MHz or higher
- Disk space: additional HD capacity of approximately 100 MB

#### **Software**

- Operating system MS Windows 2000 Professional or higher.

### **Clients**

#### **Hardware**

- Processor type: Pentium 3 type, 500 MHz
- RAM: 256 MB RAM
- Disk space: additional HD capacity of approximately 200 MB
- Network access: 100 Mbit
- Monitor: minimum 17" (19" recommended).  
Resolution minimum: 1024 x 768.

#### **Software**

- Operating system MS Windows 2000/XP Professional or higher.
- For amily: Microsoft Data Access Components (MDAC) Version 2.6 or higher (available for free from Microsoft, included in Windows XP)
- For amily: permission to write in the following branch of the registry of the Windows-Client:  
[Workstation\HKEY\_LOCAL\_MACHINE\SOFTWARE\Classes ]
- Optimal software: MS Office  
(specifically MS Excel 97 or higher)
- E-Mail-System (ideally MS Outlook)
- Configured printer
